1921 CANADIAN RARITIES

In this month's *Collector,* we have the extreme honor to present four Canadian coins of undisputed *quality, rarity and desirability*. Included in this spectacular group is an unbelievable Specimen striking of the 1921 half dollar, the "King of Canadian Coins". Not to be overshadowed are equally beautiful examples of the 1921 five cent silver piece, dime and quarter.

This offering is an unquestioned opportunity for the specialist to obtain a coin he might otherwise spend a lifetime looking for. To reserve any one of these four coins, call Toll Free: **800-543-2192** (Ohio residents call direct 513-836-8641).

1921 Half Dollar, Specimen 65+

The 1921 half dollar is undeniably the "King of Canadian Coins" and definitely is one of the world's most well known and desirable silver rarities. This spectacular specimen is breathtaking in its beauty, a marvelous blend of grey, lavender and gold. The strike is as bold and defined as one would expect on a Specimen and the surfaces are simply flawless.

Most of the 206,398 pieces minted were melted and it is estimated that only 50-75 are known today, most of which are in lower circulated grades. One UNC was offered several years ago for more than $45,000 and no other specimen has been on the market in years. This is one of the finest coins we have ever owned!

1921 Canadian Half Dollar, Specimen 65+ $49,000.00

1921 Quarter, Proof-65+

This unbelievable coin exhibits superb medium grey and lavender toning. The surfaces are virtually flawless. An exceedingly rare coin, the mintage is unknown but it certainly was very small, probably no more than just a few pieces. A higher, or even a comparable quality specimen is difficult to imagine. This is the only such 1921 proof we have seen on the market in many years.

1921 Canadian Quarter, Proof-65+ $2900.00

1921 Dime, Proof-65+

Spectacular even grey and lilac toning. Incredibly bold strike with broad borders and razor sharp edge. The specimen surfaces are flawless, free of the most minute marks. *No finer quality specimen could possibly exist!* Specimens are *very rare* and only a few such examples exist, none of which have been offered for sale in recent years.

1921 Canadian Dime, Proof-65+ $1000.00

1921 Five Cent Silver, MS-65+

Deep grey and greenish gold toning. Unbelievably well struck for a 1921 five cent silver piece. The surfaces are superb and it is our opinion that this is one of the finest, if not *the* finest known example. Of the estimated 150-200 pieces in existence, most are well worn with the typically available specimen grading FINE or less. If the 1921 half dollar is the "King of Canadian Coins", the five cent silver piece is surely the "Prince". It is certainly one of the most desirable coins in all numismatics, particularly so in this incredible condition.

1921 Canadian Five Cent Silver, Mint State 65+ $8500.00

Trial Colors Are For You!

A growing number of stamp enthusiasts are discovering a new and exciting area of collecting: **TRIAL COLORS.** Still little known outside of hobby specialists, Trial Colors offer the astute collector the chance to enter an area of *great potential* — and for a price almost anyone can afford! If this is what you are looking for, read on . . .

Specifically, a Trial Color stamp is an impression of an accepted stamp design in a color other than the regular-issued color. There are two reasons why Trial Colors were printed. First, to check the finished stamp printing plate for flaws. Second, to compare different ink colors — to determine which is to be used for actual stamp production. Because of their experimental nature, Trial Colors were printed in *very small* quantities under close supervision resulting in *exquisite impressions of exacting detail.* Without question, Trial Colors are *scarce!*

Scott #157 was issued for public use in various shades of brown. However, our philatelic buyer recently obtained several superb blocks of four and several superb individual examples of this stamp printed in black. This *Trial Color* issue (listed as Scott #157TC) was printed in 1873 and is on India paper on card. Without question, these Trial Colors are as choice and fresh as the day they were issued, 106 years ago. Seldom available *anywhere* in such beautiful condition, we expect strong demand for the few we have. Doesn't it then make sense to place your order early for this scarce and popular item?

A low printing figure, superb condition and Paramount's guarantee of complete satisfaction; three reasons why you should place your order today for Scott #157TC.

Scott #157TC, 1873 Trial Color Block of Four on India on Card, Black, Superb $115.00

Scott #157TC, 1873 Trial Color Single on India on Card, Black, Superb $27.00

PARAMOUNT PAYS ALL POSTAGE AND INSURANCE CHARGES!

1926-S
Redfield Special

Occasionally, we obtain silver dollars that, while very attractive, fall just a little short of our strict grading standards for MS-65. Though many dealers would still offer (and price) these dollars for this higher grade, we prefer to offer them for what they really are: MS-60+.

The Redfield collection contained a number of 1926-S Peace dollars. While grading them, our rare coin experts set aside those which failed to meet our standards for MS-65, yet were better than the usually encountered "average uncs". Now, *for the very first time,* we are pleased to offer these lustrous, nicely struck MS-60+ specimens individually and in *money saving* groups of five and ten pieces!

You are all familiar with the spectacular success story of silver dollars, how in a matter of only a short time went from being numismatics "forgotten son" to the King of coins! And, the demand for these hefty silver cartwheels continues to grow! Many people have found themselves drawn to these large coins for investment, others for their beauty or romantic lore. But whatever the reasons, silver dollars have arrived, attracting more and more admirers.

Long time holdings of silver dollars have almost been dispersed. Whenever quantities do appear, they are usually "common" dates. That is why we are certain this offer for the 1926-S Peace dollar will prove to be very popular. Not a "common" date, this is your opportunity to add an *above average* 1926-S dollar to your collection for a very reasonable price (not to mention the impressive money saving offer if you purchase five or ten specimens)!

Place your order today as quantities are somewhat limited. You will be glad you did!

A Fifteen Cent Piece?

You probably already know that at one time or another, the U.S. issued a two cent piece, a three cent piece, and even a twenty cent piece. But did you know that a *fifteen cent piece* was *also* issued — in *paper?*

Between 1869 and 1875, the government issued a fifteen cent fractional currency note. Because of its unusual face value, this note proved to be unpopular with the public and it was eventually withdrawn from circulation. Today, the fifteen cent fractional currency note is seldom seen, causing it to be very popular with collectors.

Paramount recently had the good fortune to acquire a very limited number of this seldom seen note (Fr-1271). What made this find even more spectacular was the condition of the notes — all choice, crisp and *uncirculated*. We have taken this small group, and after individually inspecting each and every note, have graded them either **UNCIRCULATED** or **GEM UNCIRCULATED.** These choice, unbelievably beautiful notes are now ready for immediate purchase.

This is the first time this small group of notes has ever been offered to the collecting public. **YOU** have the opportunity to be among the first to receive a selection from this outstanding group! Don't delay! This offer is certain to sell out.

This Coin Has Seen It All!

The Liberty Head ten dollar gold piece was struck from 1838 through 1907, a span of eight decades and eighteen presidents. During its issuance, the United States literally "grew up"; gold was discovered in California, the Civil War occurred, Alaska acquired, the Indian Wars were fought, the battleship *Maine* destroyed and Teddy Roosevelt charged up San Juan Hill.

Unfortunately, countless millions of these historic coins are gone forever, either lost or melted. (Don't forget the millions of ounces of gold in Fort Knox which used to be coins!) Very few truly nice and desirable Liberty Head ten dollar gold pieces remain for today's collector. That is a fact and nothing can be done to change it. But that doesn't mean you can never own this desirable coin! A portion of these beautiful coins escaped destruction and they are available — *now!*

We recently purchased a small selection of Mint State 60+ Liberty Head ten dollar gold pieces from an area collector. This small group was almost evenly divided between two years; 1893 (1.8 million mintage) and 1907 (1.2 million mintage). While they remain, you may now acquire either date for only $350. But hurry. Quantities are limited.

Place your order today for a historic ten dollar Liberty Head gold coin — a coin spanning the decades of a growing America.

1909 V.D.B. LINCOLN CENT

The 1909 V.D.B. Lincoln cent is a one year type. Because of this, it is very popular with collectors and investors alike and is an absolute MUST for both the Type coin *and* Lincoln cent collector.

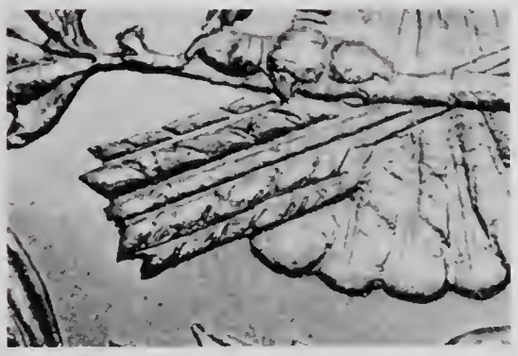
An Important Addition To Your Morgan Dollar Collection

— The 1879-S Concave Breast Dollar

In addition to the difference in breast feathers, there is a noticeable difference in the arrow feathers between the two varieties.



Concave Breast has parallel feathers.

Convex (the more common variety) has non-parallel feathers.

The 1879-S "Concave Breast" Silver Dollar is really a transitional coin because the reverse is the same as the one found on *1878-S, 1878-CC* and many *1878-P* Dollars. That is, the eagle's breast feathers are somewhat flat as compared to the breast feathers on later issues. There are other differences, too, particularly in regard to the positioning of the arrows' feathers around the eagle's claw.

After just a small number of 1879-S dollars were minted using the reverse dies from 1878, all subsequent San Francisco Morgan dollars through 1904 were struck with the convex (rounded) breast feathers. Both varieties are listed in *A Guide Book of United States Coins* (Redbook), so really this concave breast variety is considered a vital part of the Morgan Dollar series and should be in your collection.

We only have a small number of these unusual "transitional" concave breast dollars available in Mint State 60, so order promptly. Remember, too, these and all mint state Morgan and Peace Dollars we sell are backed by our exclusive SIX-MONTH MONEY BACK GUARANTEE.

U.S. Type Gold — Individual Pieces

The most popular way to collect U.S. gold coins is to assemble a Type Set. A Type Set includes a representative example of each major design and denomination. Thus, a Type Set of Double Eagles ($20 gold pieces) will contain only two coins: A Liberty Head and a Saint-Gaudens.

The price of gold has been in the news recently and many new collectors have found that Paramount offers the widest range of grades and prices for gold coins in the numismatic world. This is only natural, as Paramount's multimillion dollar inventory and unsurpassed reputation for accurate grading and fair prices are well known to experienced collectors! When you shop at Paramount for gold coins, your satisfaction is guaranteed!

When ordering a Type coin from the list below, dates will be of our choice. If you are searching for a specific date, please write or call for prices and availability. Our Rare Coin experts are waiting to serve you.

Low Mintage Golden Rarity

Now you can own a coin that has increased remarkably in value during the last five years! According to the 1973 edition of *A Guide Book of United States Coins* (Red Book) by R.S. Yeoman, the 1903 Louisiana Purchase commemorative gold dollar in Uncirculated condition listed for $100. Today, its MS-65 wholesale value is almost four times as much! Isn't that the kind of appreciation you want from your coins?

The Louisiana Purchase gold dollar — featuring President McKinley — was one of the first commemorative gold dollars ever struck by the United States. And boasting an original mintage of only 17,500, strong demand from collectors and investors has helped cause this coin to climb in value year after year. In addition to the increasing prices, Mint State 65 examples of this gold commemorative dollar are also increasingly difficult to locate as each year passes.

Take this opportunity to own a low mintage/high potential commemorative gold dollar in Mint State 65. We only have a few pieces in our multi-million dollar inventory, so order yours today!

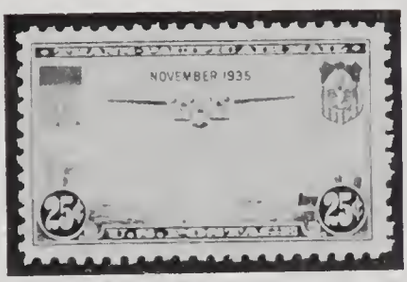
LOWEST PRINTING IN 40 YEARS!



Long considered to be among the most attractive of all United States airmail stamps, the three-piece Trans-Pacific set has become extremely popular with collectors and investors. Issued primarily to pay postage on mail transported by the Trans-Pacific airmail service, each stamp features the famous *China Clipper*, workhorse of this airmail service. The values of the three stamps comprising this set are twenty cents, twenty-five cents, and fifty cents. The fifty cent stamp has the lowest reported printing of any United States airmail stamp within the last forty years!

We have been fortunate to secure a very small quantity of this popular set in mint, never hinged condition — post office fresh! These sets are difficult to locate in such premium condition and we expect a very heavy response to this offer. Order today.

Scarce National Bank Notes

Late last fall, Paramount did the near impossible; we acquired a small number (less than ten) of the 1929 Series small size $50 National Bank Note (Fr-1803-1) in crisp Uncirculated condition. While $10 and $20 National Bank Notes are occasionally seen uncirculated, the $50 notes aren't. According to the standard reference work for United States currency, *Paper Money of the United States* by Robert Friedberg, the reason for the $50 note's scarcity is that even though " . . . issued in recent times, so many of these notes have been redeemed that there are now relatively few of them in existence". This quote incorporates *circulated* as well as *uncirculated* notes. If "relatively few" small size $50 National Bank Notes exist in *any* condition, just imagine how scarce they are in Uncirculated! No wonder these $50 notes are rarely seen!

The $50 National Bank Notes we acquired are from the Guardian National Bank of Commerce of Detroit, Michigan, Charter #8703. Despite their scarcity, we have some good news . . .

In the latest (Ninth) edition of the Friedberg catalogue, these notes list for $225 each. However, we are passing our money saving price on to you. While they remain, you may acquire one of these $50 National Bank Notes for only $185. You *save* $40 from its catalogue value!

With the growing demand for choice condition National Bank Notes, the few $50 notes we have will certainly not last long. Better place your order NOW to be certain of receiving *your* crisp uncirculated beauty!

Low Mintage Redfield Dollars

The rare coin market has undergone a tremendous growth in the last few years but no one particular coin or series has attracted so much attention or appreciated in value so much as have silver dollars. Even if one were to look at three or four year old catalogues, he would be amazed at the great appreciation these coins have experienced.

For 15 years, Paramount has been the leading dealer of top quality silver dollars. We have bought and sold some of the rarest and finest silver dollars, including the largest part of the fabulous and famous LaVere Redfield Collection!

Paramount's years of leadership in the silver dollar field are the result of conservative grading, fair pricing and total dedication to customer satisfaction. We were the first company (early 1976) to offer a SIX-MONTH MONEY BACK GUARANTEE on the silver dollars we sell. Since we started this unusual return policy, less than one percent of the dollars we've sold have been returned for a refund! Few dealers can claim such a high record of customer satisfaction! *We are so confident we sell the finest dollars for the money, we invite you to sit back, compare quality and price and decide for yourself that Paramount does offer you more!* AND, we give you SIX MONTHS to convince yourself!

Branch Mint Gold — 1915-S Double Eagles

We did it again! Our buyers just obtained a small group of attractive, low mintage, underrated 1915-S Saint-Gaudens Double Eagles in Mint State 60+ condition!

When compared to other twenty dollar gold pieces, the mintage of the 1915-S is surprisingly small, just 567,500 pieces. Obviously, because of the vast gold meltings in the 1930's, the number of available specimens is probably much less. And of the pieces available, many have been circulated or damaged.

Also surprising is that this low mintage coin does not have a large premium attached to it. For just a few additional dollars over the price of a "common date", you can add the desirable 1915-S Double Eagle to your collection!

Recent market activity has shown a renewed interest in United States gold coins. Because of their large size and gold content (almost one ounce!), twenty dollar gold pieces are especially popular. That is why if you are considering adding the 1915-S Double Eagle to your collection, time is of great importance. Don't delay. Remember, we only have a few specimens in stock.

STILL GOING UP!

The popular HAWAII overprint one dollar bill is *still going up!* The current collector, investor and dealer demand for this note in uncirculated condition continues to be *unprecedented.* In fact, this demand is so strong, the note's *wholesale* value has increased *approximately 25%* since just last Fall! Who knows how high this note may be in the near future!

The HAWAII one dollar bill is one of the most popular items ever offered by Paramount. Everytime we offer this note, we are swamped with orders, and each time it takes us longer and longer to replenish our inventory. Crisp uncirculated specimens just cannot be easily found! If you failed to take advantage of our offer of the HAWAII note in the October *Paramount Collector,* don't let the opportunity pass by twice! While our small supply remains, we are making these popular notes available on a *first come, first served* basis for only $30 each.

Crisp uncirculated United States currency is in demand! Never has interest been stronger. And because of its historic significance, unusual overprint and status as a type note, it stands to reason the HAWAII one dollar bill is among the most popular. Combine that with Paramount's conservative grading and fair pricing and you will agree when we say: Order your HAWAII overprint *today!*

1890-S Silver Dollars

- A Date to Consider in Your Collection or Portfolio
- 110% Increase in Selling Price in Last 30 Months!

A few years ago, no one would have predicted silver dollar prices would have increased to their present levels. Even the major "investment newsletters" didn't see such a rise in popularity for these coins. As recently as August, 1976 our selling price for a quality Mint State 65 1890-S was $38.00. A prominent silver dollar book projected this date to increase to $75 in 1987. Well, 1987 is 8 years away and already the price is higher than $75 for Mint State 65 specimens!

We have several rolls of this attractive date in both Mint State 60 and Mint State 65. Each of these coins is from the world famous Redfield Collection and carries our SIX-MONTH MONEY BACK GUARANTEE! You *must* be satisfied, or return your coins in their original, undamaged holders for a full refund anytime with SIX MONTHS of purchase. Paramount wants you to take SIX MONTHS to sit back and watch the market and convince yourself that the silver dollars you buy are worth keeping! Quality is very important to us at Paramount!

Mint Director Says New Smaller Dollar Coin Will Be Issued This Year!

That's why we call the Ike Dollar: "THE DOOMED DOLLAR"

A new smaller dollar coin will replace the Eisenhower Dollar as early as next July according to a press release by Mint Director, Stella Hackel. The new coins will be suitable for many vending machine applications. It is even hoped that the new smaller dollars will replace the dollar bill since the coins will cost no more to produce and will have a much longer life in circulation than paper dollars.

Naturally, this means the traditional 38.1 mm dollars will become another bit of U.S. history. As such, the older and larger dollars could easily become extremely popular (they already *are very* popular). Prices *could* increase dramatically if the demand outstrips the supply.

As a matter of record, the Eisenhower series contains several dates with exceptionally low mintages as can be seen on the chart below:

THE LAST OF THE 90% SILVER DOLLARS

Paramount is offering YOU the opportunity to be a proud owner of a *complete* set of Peace dollars — at a *down-to-earth price!* Each set is composed of a Peace dollar of *every date* and *every mintmark* issued from 1921 through 1935.

The coin which starts this set is the scarce and highly desirable 1921 Peace Dollar — the only true high relief dollar ever struck. With a mintage of one million, this coin is just the beginning of a veritable treasury of *low mintage silver dollars!* Fourteen of these dollars have mintages of under two million of which four are under one million. This includes the *scarce* 1928 Philadelphia issue — a Twentieth Century rarity.

Every coin contained in these sets has been hand-selected and approved by Paramount's silver dollar experts. The only coins which they approved were those grading Fine 12 *or better.* Also, they guarantee that at least one silver dollar in each set will be mint state.

You will be proud to own and display one of these Peace Dollar sets. Each comes mounted in a deluxe bookshelf album for your viewing pleasure. We know you will be pleased. Mail your order today.

Complete Peace Dollar Collection, 1921 through 1935, 24 Coins, Fine 12 to Mint State 60, Mounted in Deluxe Album $425.00

Popular APS Souvenir Sheets

Under the authority of James A. Farley, Postmaster General in the Franklin Roosevelt administration, the Treasury Department printed a limited number of souvenir sheets "in compliment to the American Philatelic Society for its convention and exhibition" in Chicago in August of 1933. Two different sheets were issued. The first (Scott #730) consists of twenty-five 1¢ stamps in deep yellow green depicting Fort Dearborn (site of Chicago). The second sheet (Scott #731) consists of twenty-five 3¢ stamps in deep violet depicting the Federal Building, a Chicago landmark. Both sheets were issued *without gum*.

Forty-six years have passed since these two souvenir sheets were issued. As can easily be expected, many of the sheets which have survived are in poor condition — soiled, torn, faded, wrinkled, etc. Certainly, you would not want to add any of these sheets to your collection or portfolio. You *demand* the finest — and that is exactly what we are offering!

Our philatelic buyers literally "cherry-picked" dozens of stamp dealers to acquire the superb Scott #730 and 731 souvenir sheets now in our inventory. Turning down opportunities to buy entire dealer stocks at "bargain prices", our buyers instead inspected each sheet carefully and paid a little higher price for premium copies. Let's face it,to get quality, you have to pay for it! And as we all know, quality wins in the long run.

After weeks of buying "one sheet here, one sheet there", we feel we now have a sufficient quantity of *superb* souvenir sheets to make them available to you:

Scott	Printing	Condition	Price
#730	456,704	Superb	$50.00
#731	441,172	Superb	$40.00
		Total	$90.00

Special! Save $7.50. Purchase both sheets for $82.50 and save $7.50 from their combined individual price! Quality *and* a money saving opportunity — a combination hard to ignore. So why don't you place your order today? After all, there is no substitute for quality — quality you can be sure of receiving when you order from Paramount Philatelics!

Scarce National Currency Sheets

Here is a chance for the serious collector or investor to obtain a truly outstanding item that is both scarce *and* unusual; original *uncut* sheets of United States currency. That's right! These sheets are intact — just the way they left the Bureau of Engraving and Printing so many years ago. Already scarce in their own right as uncut sheets, they are even *more desirable* because the notes comprising each sheet are *National Currency* notes — and National Currency notes haven't been printed for forty-five years! But even more important is the fact that each of the sheets we have available are from the same bank, **The Lawndale National Bank of Chicago, Illinois, Charter #10247.** Obviously, these notes were the prized possession of a bank official. How else could they have survived and remained together all these years?

This undoubtedly makes the first time *ever* these sheets have been offered for public sale. This gives you, as a Paramount customer, a *unique opportunity* not previously afforded to *any* collector — the opportunity to acquire one of these scarce and desirable uncut sheets! **This may very well be the only chance you will ever have.**

Naturally, these sheets have never seen circulation but technically, we must call them **Almost Uncirculated** because of folds *between* the notes. This is common to currency sheets and in *no way detracts from the beauty, scarcity or desirability of the sheets we are offering.* Call Toll Free 800-543-2192 to place your order (Ohio residents call direct 513-836-8641).

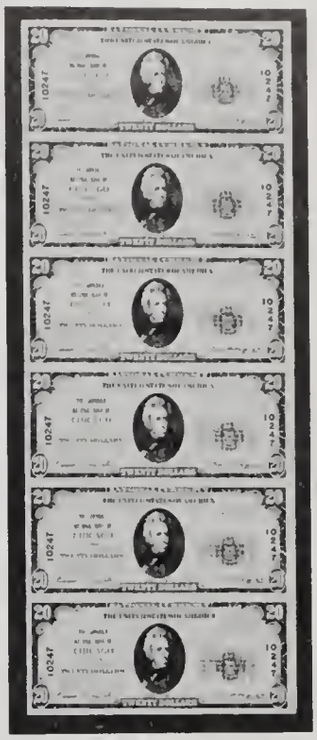
Fr-1801-2



Fr-1802-2

Fr-602. This 1902 series sheet consists of four $5 notes. The government signature combination of NAPIER-McCLUNG is *unlisted* in Gene Hessler's standard reference work *Comprehensive Catalogue of U.S. Paper Money!* In addition, this sheet is *completely unsigned* by the bank officials! This is only one of two sheets we have ever seen or heard about that is completely unsigned. Obviously, this offering could easily be a once-in-a-lifetime opportunity for the collector.

Fr-602, Uncut Sheet, AU $2500.00

Fr-628 and 654. This eye-catching 1902 series sheet consists of three $10 notes *and* one $20 note. As with the previous sheet, this too is *completely unsigned* by the bank officials — only the second unsigned sheet we have ever encountered. Only $4010 in large size currency from this bank was still outstanding in 1935. Without question, a scarce and desirable item.

Fr-628 and 654, Uncut Sheet, AU $1900.00

Fr-1801-2. We are fortunate to have *two* uncut sheets of six of this popular 1929 series $10 note available. Considering small size National Currency notes such as those comprising this sheet sell for $75 *and up,* we feel our price of $875 for this infinitely more rarer sheet is quite reasonable.

Fr-1801-2. Uncut Sheet, AU $875.00

Fr-1802-2. The fourth sheet we offer is the 1929 series sheet of six $20 notes. Similar notes individually sell for around $90 each. Considering the scarcity of uncut sheets, we feel that at today's price, these sheets may be undervalued. *Now* is the time to seriously consider adding this sheet to your collection.

Fr-1802-2, Uncut Sheet, AU $925.00

Nicholas Romanov's Golden Roubles

In Imperial Russia, one of the first acts of a new Czar was to order new coinage. Once the coins were struck and distributed, the Czar's position was forever etched in his subject's minds and in the history of his nation. Unfortunately for Nicholas Romanov, also known as Czar Nicholas II, his was to be the last Romanov face to grace Russian coinage. After the revolution in 1917, literally tons of gold coins bearing the Czar's portrait were removed from circulation and destroyed.

Perhaps it is the wholesale destruction of the gold coins of Nicholas II which makes them so popular with collectors. Perhaps it is the hefty gold content. But one fact is secure: The 5 and 10 Rouble gold coin sets of Nicholas II are always among our most popular offers.

Featuring Czar Nicholas II on the obverse and the Imperial Eagle on the reverse, the two gold coins grade Very Fine or better. Carefully matched to insure your complete satisfaction, each two coin set is delivered in a custom holder.

Do not hesitate in placing your order for this popular two-coin golden set. Own Nicholas Romanov's golden roubles at today's favorable price. Send for yours today.

Russian 5 and 10 Rouble Gold Set, VF or Better, In a Custom Holder $159.00

(Price subject to change in the event of a significant change in the price of gold. Dates of our choice.)

Now you may purchase *all* 97 coins housed in three bookshelf albums for only $2675. That's an average price of just $27.58 per coin. In order to allow more people the opportunity of owning this set, we now offer a 90-day payment plan with *no interest charges.* Just send an initial payment of $725 followed by $650 in 30 days; $650 in 60 days and the final $650 in 90 days for a total payment of $2675. What Every Smart Numismatist Should Own

How well can you tell the difference between a counterfeit and genuine coin? Sometimes even the experts have difficulty! That is why you should arm yourself with the *Model 311 Counterfeit Detection Kit.*

With this Counterfeit Detection Kit, you can perform two very important tests on a coin whose genuineness is in doubt. The first is **weighing** the coin, using the *quality* Ohaus scale contained in this kit. By comparing your findings with the coin's official weight, you will have a very good idea as to whether or not the coin is suspect.

The second test you will be able to perform is **specific gravity.** By knowing the specific gravity, the coin's metallic composition can be determined. This is very important because many counterfeit coins are not composed of the same alloy as genuine coins.

Each *Model 311 Specific Gravity Scale and Counterfeit Kit* by Ohaus will consist of a scale, set of weights, beaker, thermometer, caliper, and the Ohaus Specific Gravity handbook. This entire kit is available for only $99 — a small price when you consider the alternative.

The *Counterfeit Detection Kit* is a valuable tool. If you are a serious numismatist, you owe it to yourself to have one!

Ohaus Model 311 Counterfeit Detection Kit, Complete and Postpaid $99.00

CARSON CITY SPECIALS

The history of the Carson City Mint is filled with much of the excitement and thrills of the "old wild west". This western mint was established in 1870 to accommodate the gold and silver miners of Nevada's Comstock Lode region so they wouldn't have to take their ore over the mountains to San Francisco. Carson City's life as a mint was a short one, however. Heavy production costs, labor problems, a decline in newly mined bullion and poor record keeping brought an early death to this facility in June 1893. After minting operations ceased, the large stone edifice served as an assay office until 1933. Soon after, the Federal Government turned the building over to the State of Nevada where it is now used as the state museum.

From the famous LaVere Redfield Collection, we have the last two Carson City silver dollars — **1892-CC** and **1893-CC.** Both dates are among the scarcest Carson City issues as well as being key dates to the entire Morgan Dollar series of 1878-1921.

It should be noted that during the final days of the Carson City Mint's life, morale was low and the quality of many of the coins produced was below par. It is indeed difficult to find sharply struck and minimally bagmarked 1892-CC and 1893-CC dollars! We have hand selected only those coins which meet *our* strict MS-65 standards to be sold as "MS-65's". Our MS-60's, on the other hand, will surprise you as they will meet or exceed the quality of most *MS-65's* offered elsewhere.

No risk offer! If you are still not convinced that only Paramount offers you high quality and friendly service at a reasonable price, place a trial offer. We back all our Mint State Morgan and Peace Dollars with our SIX-MONTH MONEY BACK GUARANTEE OF SATISFACTION!

Save! Save! Save!

If you order before February 15, 1979, you will save 10% off the regular price of both these coins! Both dates have risen dramatically in value in the last 2½ years so we urge you to order *now* at these special prices while they are still quite reasonably priced!

A Music Box Stamp for Collectors

Essay stamps are to Philatelists as pattern coins are to Numismatists. Both represent experimental designs. Both were produced in extremely limited numbers. And neither were released for the public's use. But pattern coins often sell for hundreds of dollars (sometimes *much* more), while many essay stamps can still be purchased for reasonable prices. But this difference will not last forever. Essay stamps are increasing in popularity and prices are rising!

Paramount is proud to offer the extremely scarce and popular "Music Box" grill essay with points down. To produce this grill, a cylinder with small pinholes was rolled over the stamps. The points slightly puncture the paper, making the stamp more absorbent of the postal cancellation. That way, it would be more difficult to erase the cancellation in order to reuse the stamp. In retrospect, the Post Office was overly concerned about citizens trying to erase postal cancellations, and the costly grilling experiments were discontinued after a short time.

The "Music Box" grill essay we offer has the points down, meaning the grill cylinder was rolled over the obverse side of the stamp. Each stamp we offer is post office fresh and never hinged — the utmost in condition. As always with a grilled stamp, a few perforations will be irregular — the grill points weaken the perfs. But this is normal, and does not detract from the scarcity, desirability, or potential of this essay.

Order today to be sure of adding this extremely scarce "Music Box" grill essay to your collection or portfolio.

FREE: WITH EVERY ORDER FROM THIS COLLECTOR,

SCOTT #1684.

This attractive stamp was issued in 1976 (Scott #1684). It looks very much like an airmail stamp, but it is a normal United States commemorative stamp. 156,960,000 were issued. Sounds enormous, doesn't it? With 50 stamps to the sheet, a little over 3 million plate blocks could exist. But do they? We don't think so. We feel this issue was overlooked and is much scarcer than generally believed, certainly scarcer than the Scott value of $2.90 would indicate!

Remember the Bicentennial year of 1976? It was a *very* busy year for stamp collectors. We feel this stamp was overlooked by collectors and dealers alike and most were used on postage. It was distributed to all the major post offices and simply went the way of the stamp — used on letters.

We have viewed many large dealer stocks and this is the plate block that no one seems to have in quantity — if at all! We feel this plate block has a future — a very *bright* future. This is not a sales pitch. We are not offering this plate block for sale. We have acquired several hundred and will send one at *no additional cost* to every person who places an order from this *Paramount Collector!* That's right — every collector who places an order will receive one of these beautiful plate blocks with our compliments.

It may not seem like much today — but put it away or start a young collector with it. It's sure to grow in value.

We reserve the right to substitute with another item of equal or greater value in the event our supply of this plate block is depleted. To receive this item, your order must be from this *Collector*. **LIMIT: One plate block per customer.**
